

Better, Smarter, Healthier:

Delivery System Reform

U.S. Department of Health and Human Services

Better, Smarter, Healthier

“

Improving the way providers are incentivized, the way care is delivered, and the way information is distributed will help provide better care at lower cost across the health care system.

Focus Areas

Description

INCENTIVES

- Promote value-based payment systems
 - Test new alternative payment models
 - Increase linkage of Medicaid, Medicare FFS, and other payments to value
- Bring proven payment models to scale
- Align quality measures

CARE DELIVERY

- Encourage the integration and coordination of clinical care services
- Improve individual and population health
- Support innovation including for access

INFORMATION

- Bring electronic health information to the point of care for meaningful use
- Create transparency on cost and quality information
- Support consumer and clinician decision making

Drivers of Success

Common Standards: Health IT products throughout the market use ONC's list of federally recognized, national standards so that they speak the same language.

Culture Change Around Access to Information: Individuals and clinicians ask for and receive electronic health information as a matter of course, enabling them to have full access to a picture of their or their patients' health whenever they need it.

Business Case for Interoperability: Doctors and hospitals demand interoperability because it is vital for the financial incentives available under CMS' payment reforms.
