Case Studies from Provider-Led Organizations Implementing APMs: Actionable Takeaways from Diverse Payment Models

Agenda

Introduction

Health System Partners Case Studies

Questions & Open Discussion

Introduction

Our Mission and Model

To change the health of the nation by

changing the way health care is delivered.

Aligned Partner

Conviction for provider-led population health

- JV to ensure clinical and financial alignment
- Payer-neutral approach

Clinical Value

Expansive team of clinical experts guiding a provider-centric approach

- Model of care built by and for physicians
- Advanced clinical solutions

Full Solution

Integrated menu of world-class infrastructure

- Embedded experts, platforms, technology
- Comprehensive yet scalable solution backed by \$320M investment

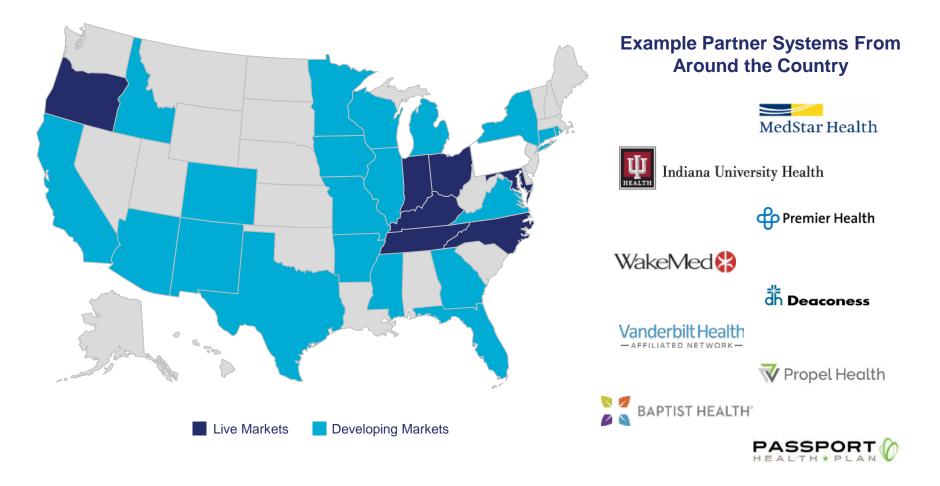

Experienced team and solution base

- Complete plan capabilities grounded in 10+ years of provider experience
- National support model and network of preeminent health systems

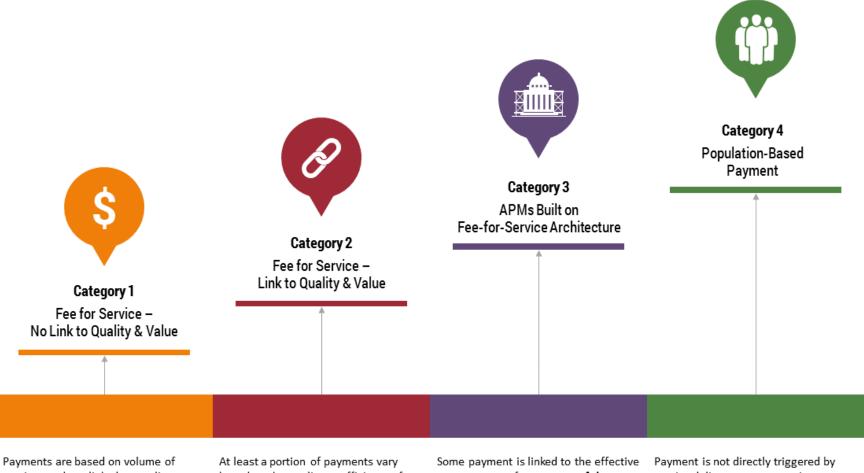

Evolent Health National Network of Partners

A National Network of Leading Provider-Led Risk Bearing Organizations

Alternative Payment Model Framework

Payments are based on volume of services and not linked to quality or efficiency. At least a portion of payments vary based on the quality or efficiency of health care delivery. Some payment is linked to the effective management of a **segment of the** population or an episode of care. Payments still triggered by delivery of services, but opportunities for shared savings or 2-sided risk. Payment is not directly triggered by service delivery so payment is not linked to volume. Clinicians and organizations are paid and responsible for the care of a beneficiary for a long period (e.g. \geq 1 year).

Critical Success Factors

Established structure and long-term vision to guide what will be an iterative journey to value-based care

Integrated technology platform and data sharing protocols

Aligned delivery and payer network with clear roles, shared goals and transparent processes

Effective clinical and quality management that is measurable and grounded in scalable infrastructure

Physician-led transformation through communication, listening, and more communication
